1205X22	Bio-Bin, M-Stand, for 30L	1 EA	\$105.98

Bio-bins are a new cost effective and convenient alternative to rigid plastic waste collection and disposal containers. Ideal for use in academic, clinical, government and industrial laboratories for a wide range of non-sharps biomedical and laboratory waste that require special heat treatment such as autoclaving or incineration before disposal. Items such as microbiological loops, pipettes, tips, test tubes, swabs and vials are ideal for disposal by this method.

**Fold-flat**  
2.5L Bio-bin® is delivered folded flat

**Temporary Seal**  
When lid is folded down press here for temporary seal

**Permanent Seal**  
Peel off release paper and fold down lid to seal permanently

**Printed user instructions**  
Simple instructions on how to seal the Bio-bin®

**Built in lid**  
Push inwards here to close lid

**Biohazard**  
Supplied with 2" x 2" Biohazard labels for user application if necessary

**Light weight**  
Weights up to 65% less than plastic alternatives

**Water proof construction**  
96% paper construction with a very thin coating of plastic laminated to make it water proof inside and out. Heat sealed joints prevent any leakage.

**No sharps**  
Only used for non-sharp infectious waste.

**Stackable pre and post use**  
6L Bio-bin® is delivered stacked inside each other making them very space efficient. Once sealed down they can be stacked on top of each other.

**Absorbent Bio-matt™**  
Every Bio-bin® will come with a removable Bio-matt™. This will absorb liquid and turn it into a gel in minutes.
