

Thomas No. **XC3200-KW5**

XtraClean™ face masks are made from a 3-layer construction of non-woven polypropylene and feature a flexible (sealed) aluminum nose bridge. These quality facemasks are 7" wide, providing a 99% bacterial filtration efficiency and 99% particulate filtration efficiency. XtraClean™ K-Style face masks feature unique heat-sealed "K-Designed" fit on both sides, creating a more secure fit than traditional face masks.

Packed 50 per Package, 10 Packages/Case, Total: 500/Case

Thomas No.	Description	Case Qty.
XC3200-KW5	Facemask, Xtraclean, White 3-ply, Cleanroom Compatible ISO 6-8, Earloop, 7" Wide, Pleated, Class 1000, K-Style, Bagged, 50EA/PK, 10/PK/CS	500

Physical Properties	
Material:	SPP and meltblown polypropylene
Front Layer:	SPP (20 gram/sq.meter)
Back Layer:	SPP (25 gram/sq.meter, absorbing water SPP)
Center:	Meltblown Polypropylene (25 gram/sq.meter)
Earloop:	Elastic latex free
Sizing	
Length:	175mm +/- 5mm
Height:	95mm +/- 3mm
Nosepiece:	12.5mm +/- 5mm
Earloop:	175mm +/- 5mm
Other	
Colors:	White outer, white inner, white elastics
Bacterial Filtration Efficiency:	99%
Particulate Filtration Efficiency:	99%
