

 Oil-Repellant

HyFlex® 11-920 Glove

Optimal Control In Slippery Situations.

Durable protection with a sure grip.

In oily conditions, slips can be costly and dangerous. Ansell's first oil repellent glove with gripping properties utilizes our patent-pending Ansell Grip Technology™ in the palm coat. This double-process technology wicks oil away from the glove's surface while preventing oil penetration.

Handle oily objects with confidence.

Keep your workers safe and productive while reducing the risk of dermatitis with the HyFlex 11-920 glove. Ansell Grip Technology™ channels fluid away from the glove's surface similar to how tire treads manage water on the roadway, enabling workers to effectively grip wet or moderately oily objects with less force. Keeping workers comfortable, healthy and protected.

Precision Protection™

HyFlex® 11-920 Glove

Outstanding Product Attributes & Benefits

Ansell Patent-Pending Grip Technology™ Coating

- Unique coating repels oils and other lubricants away from the surface via microscopic channels
- Increases surface contact for enhanced grip and control
- Prevents oil penetration and reduces the risk of dermatitis and liquid exposure
- Multi-layer dipping process provides high abrasion resistance and increases wear life
- Superior dry and oil grip for high productivity
- Durable material is machine launderable for extended life and reduced replacement costs

Ansell's Special Nylon Fine Gauge Liner

- Provides softness, comfort and breathability to the glove
- Ergonomic, natural fit
- Available in a wide range of sizes to protect more workers (6-11)

Industries

- Automotive
- Machinery
- Metal Fabrication
- Tier One
- Transportation
- White/Durable Goods

Applications

- Engine & transmission assembly
- Handling machined parts free from shavings & sharp edges
- Handling small castings, gears & other abrasive edged parts
- Light metal fabrication & parts handling
- Light stamping in oily environments
- Product inspection

Ordering Info: Sizes & Packaging

Sizes: XS (6), S (7), M (8), L (9), XL (10) & XXL (11)
12 dozen per inner bag of 12 pairs—144 pairs per case

Ansell HyFlex Line

The HyFlex 11-920 glove is part of the HyFlex Oil-Repellant range. The HyFlex glove line is comprised of four premium performance ranges: Precision, Cut-Resistant, Oil-Repellant, and Specialty products. For a comprehensive review of our HyFlex Precision Protection™ line, please visit www.hyflex.com or call 1-800-800-0444 to speak to a customer service representative.
