

Circulating Water Bath Thermostats TW-2.03 – Plastic

Product Description

The plastic TW-2.03 convenient and reliable 8.5 liter bath that consistently deliver outstanding results in the lab.

Features

- Precise and user-friendly temperature control in the bath
- Automatic water level detection system
- Variable water circulation speed
- External water circulation pump to accurately heat other items
- Thorough water mixing to maintain consistent temperature
- Slim, simplified design for quick and easy disassembling and cleaning

Specifications

| | |
|-----------------------------------------------------|------------------------|
| Temperature Range in the Bath | Ambient +3 up to 90 °C |
| Accuracy of Set Temperature Maintenance in the Bath | ±0.1 °C |
| Max Time of Set Temperature Achievement | 50 min |
| Max Bath Capacity | 8.5 L |
| Temperature Stabilization Above the Environmental | 3 °C |
| Water Circulation Speed Variable | 2-5 L/min |
| Voltage and Frequency | 220 V; 50 Hz |
| Power Consumption | Up to 1.5 kW |
| Size of the Device (L x W x H) | 265 x 330 x 265 mm |
| Weight | 1.8 kg |
