

MAGIO MS-601F Refrigerated / heating circulator

As with all circulators from the MAGIO range, the refrigerated circulators stand out thanks to their premium quality, high performance and intuitive operation. The devices offer extra strong pressure and suction pumps, thus fulfilling the highest demands for temperature control of external applications. Whether in basic research, material testing or technical systems – the MAGIO refrigerated circulators offer high-tech solutions for high customer requirements.

High resolution TFT touch display

The modern TFT touch display gives you all the important information at a glance. Three large, predefined main screens clearly display data and graphics with various application priorities. Menu navigation is self-explanatory, arranged by relevance to daily operations and easy to operate with the touch of a finger. The in-built help function provides detailed support in case of additional questions.

Product features

- Ideal for demanding external applications
- Simple control of complex applications
- Continuously adjustable, extremely powerful pressure / suction pump
- Flow rate 16 ... 31 l / min, pressure 0.24 ... 0.92 bar, suction 0.03 ... 0.4 bar
- Large, high-resolution TFT touch display with multilingual user interface
- Parts being in contact with the medium made of stainless steel
- Integrated programmer
- Integrated external Pt100 connection
- USB connection
- RS232 interface for online communication
- Ethernet
- analog interfaces (accessory)
- Class III (FL) according to DIN 12876-1
- Modbus
- Profibus DP (Accessory)
- RS232/RS485 interface for online communication
- Connections for solenoid valve

Technical data

Available voltage versions		Bath	
Order No.	9 032 705	Bath tank	Stainless steel
Available voltage versions:		Bath cover	integrated
9 032 705.01	100V/50-60Hz (Nema N5-15 Plug)	Usable bath opening in. (W x L / D)	8.7 x 5.9 / 7.9
9 032 705.02	115V/60Hz (Nema N5-15 Plug)		
9 032 705.05	200-230V/50-60Hz (CH Plug Type SEV 1011)		
9 032 705.04	200-230V/50-60Hz (UK Plug Type BS1363A)		
9 032 705.33	200-230V/50-60Hz (Schuko Plug - CEE 7/4 Plug Type F)		
9 032 705.33.chn	200-230V/50-60Hz (CN Plug)		
Cooling		Other	
Cooling of compressor	1-stage Air	Classification	Classification III (FL)
		IP Code	IP 21
		Pump function	Pressure Suction Pump
		Pump type	Immersion Pump

Electronics		Dimensions and volumes

All Benefits

100% Checked.
100% testing. 100% quality. Each JULABO Circulator undergoes thorough quality testing before leaving the factory.

Green technology.
Development consistently applied environmentally friendly materials and technologies.

ICC

Intelligent temperature control.
Intelligent cascade control - automatic and self-optimizing adaptation of the PID control parameters with external stability of +/- 0.05 °C.

ICC

Quick start.
Individual JULABO consultation and comprehensive manuals at your disposal.

Cloud

Services 24/7.
Around the clock availability. You can find suitable accessories, data sheets, manuals, case studies, and more at www.julabo.com.

Touch

Touch display. Perfect operation.
With the touch display, the user always has an overview of all values and functions. The intuitive and multilingual menu structure enables perfect control.

**max
! min**

Maximum safety.
Classification III according to DIN12876-1 enables safe operation, even with flammable fluids. Automatic switch-off in the event of high temperature or low liquid level.

A | zh

Multi-lingual.
Operation in multiple languages.

Temperature

Temperature. Under control.
External Pt100 sensor connection for precise measurement and control directly in the external application.

Speaker

Process stability.
Early warning - visual and acoustic - of critical states increases process stability.

Stable

Stable. Mobile.

Steel

Everything made of stainless steel.
Quality and material compatibility at the highest level. All parts in contact with the medium are entirely made of stainless steel.

Made in German

JULABO. Quality.
Highest standards of quality for a long product life.

Satisfied customers.
11 subsidiaries and more than 100 partners worldwide guarantee fast and qualified JULABO support.

ATC10

Highest measuring accuracy
'Absolute Temperature Calibration' for manual compensation of a temperature difference, 10-point calibration

Many interfaces.
Straight-forward remote control, data management, and integration into process structures. USB, Ethernet, RS232, SD card, and alarm off are permanently integrated. Further interfaces available as accessories.

Space saving. Free up space.
Place your JULABO Circulator right next to an application, another unit, or wall. That saves space. This is made possible by eliminating vents and connections on the sides.

Programmer. Integrated.
The integrated internal programmer makes it possible to automatically run temperature time profiles.

Fill level. Monitored.
Fill level indicator on the display for heat-transfer liquid.

TCF

Process. Under control.
Full control of the dynamic, access to all important control parameters for individual process optimization.

Energy-saving.
The high-quality insulation of all relevant components saves energy.

Wide range.
Refrigerated and heating circulator in various combinations, circulator in various sizes. Maximum flexibility through a large selection of accessories.

**Connection. Easy.**

Inclined pump connections (M16x1) facilitate the connection of applications. Each unit includes 2 barbed fittings of 8/12 mm diameter each.

**Analog I/O.**

Analog interfaces for integration into process control systems (optional).

**Most powerful pump.**

The integrated pressure/suction pump with performance values of 0.9 bar and -0.4 bar is the most powerful in its class and continuously adjustable.

**Condensation protection.**

Superb design solution. Integrated ventilation directs air over the bath lid and minimizes condensation.
