

# Culture Tubes

***Polypropylene or Polystyrene, soft glass,  
Borosilicate glass, with or without marking spot.***

- Polypropylene or polystyrene
- Standard sizes
- Sterile or non sterile
- Available with or without snap cap

**Thomas® Culture Tubes** can be used for almost any laboratory procedure. They are chemically free and biologically inert. These tubes are precision molded from premium grade materials and checked under strict quality guidelines, which provide continued lot-to-lot uniformity and reliable performance. All sterile tubes are gamma irradiated and ready to use.
