

NEW LAB START-UP CATALOG

Start Your New Lab with Thomas Scientific, Today!

WHAT TO KNOW

Starting A Lab With Thomas Scientific:

In the dynamic world of scientific research and diagnostics, setting up a new lab can be both an exciting and daunting endeavor. Recognizing this, we are proud to introduce our New Lab Start-Up Partnership Program, designed with flexibility to support the unique needs of emerging laboratories.

Program Goals and Offerings

Our comprehensive solutions are built to facilitate a seamless start-up process, ensuring your new lab is not only equipped with essential instruments, furniture and consumables but also supported every step of the way. Keeping your goals and priorities in the forefront, we can offer any combination of the following elements:

- **Deep Product Discounts with Price Match Opportunities:** Benefit from exclusive discounts on our wide range of products, with price match options to ensure you get the best deal possible.
- **Product and Workflow Consultation and Selection:** Our experts will work with you to identify the best instruments, consumables, reagents, and equipment that align with your lab's specific research or diagnostic goals.
- **Personalized Remote Lab Design Support:** Utilizing cutting-edge augmented reality tools, we offer personalized lab design services to optimize your space for efficiency and safety.
- **Virtual/In-Person Product Demonstrations:** Get an up-close look at our products through virtual or in-person demonstrations, helping you make informed decisions about your lab equipment.
- **Regulatory and Compliance Guidance:** Navigate the complex landscape of regulatory requirements with our expert guidance, ensuring your lab complies with all necessary standards.
- **Flexible Finance Options:** We understand the financial constraints new labs often face, which is why we offer flexible financing solutions to accommodate your budget.
- **Product Installation and Training:** For selected instruments and equipment, our team will provide professional installation services, followed by comprehensive training to ensure your staff is fully equipped to use the new technology effectively.
- **Ongoing Support:** Our commitment to your success extends beyond the initial setup. With ongoing support from our technical application specialist team and partners, you can count on us for continued assistance.

NEW LAB START-UP PROGRAM IS RIGHT
FOR YOU.

SPECIAL OFFERS

WHO IS ELIGIBLE

THOMAS SCIENTIFIC CAN PROVIDE COMPLETE SOLUTIONS FOR:

Starting a New Lab
Within Your Company/
Institution

Expanding or Refurbishing
Your Existing Lab

Starting a New Company

Moving Your Lab into a
New Space

GETTING STARTED IS EASY:

- 1** Look through our product checklists starting on page 8 and mark what you might need or utilize your own.
- 2** Connect with your Thomas Scientific sales representative to discuss the next steps or simply request a quote.
- 3** Get back to the science, we will take care of the rest.

Don't have a Thomas Scientific Rep, yet? This is quickly solved by calling us at 833.544.SHIP (7447) or chatting with us online at [ThomasSci.com](https://www.thomassci.com)

Your Rep's Contact Info:

CUSTOM LABORATORY PROJECT IDEAS

Let's build something together! We are here to listen and collaborate on a lab designed to maximize workflow efficiency and productivity for projects of all sizes. Thomas Scientifics' unique team of experts and extended partners can upgrade, renovate or build a brand-new lab made to last!

Custom projects are built for your needs and may include consultation, design, delivery and installation. Our extended support team includes:

Furniture Specialists

Furniture specialists design the most efficient and budget-friendly layout for your laboratory.

Project Estimators

Project estimators deliver a detailed assessment of your requirements and the associated costs for the project.

Design Specialists

Design specialists produce AutoCAD plans and elevation drawings that optimize the use of space while adhering to established safety standards.

Project Managers

Project managers supervise every aspect of your project from beginning to end.

Factory Trained Installers

Factory-trained installers ensure a seamless and hassle-free completion of your project.

Workflow Specialists

We specialize in providing innovative solutions for any application.

YOUR FURNITURE SOURCE

We bring you the best brands in the industry

For full details and furniture portfolio, check out: [ThomasSci.com/Furniture](https://www.ThomasSci.com/Furniture) for details!

Biosafety Cabinets • Benches • Carts • Cabinets • Countertops • Emergency Eyewash Stations & Showers Fixtures • Glassware Washers • Fume Hoods & Enclosures • Laboratory Seating
Racks & Bins • Safety Storage Cabinets • Shelving • Tables

For all of our Furniture programs, visit: [ThomasSci.com](https://www.ThomasSci.com) and click on Furniture under our Laboratory section!

THOMAS QUICK SHIP FURNITURE PROGRAM

Lab Furnishings

Science moves fast, and you can trust Thomas Scientific to sprint at your pace with our Quick Ship Program. We offer an extensive selection of lab furnishings that are available in a matter of days and complete laboratories can ship within 10 days!

- Cabinets
- Carts
- Chairs & Stools
- Countertops
- Fume Hoods
- Shelving
- Sinks & Faucets
- Tables
- Workstations

With over 600 quick ship solutions, we will find the furniture for your timeline.

Quick Ship Flip Book

For all of our Furniture programs, visit: ThomasSci.com and click on Furniture under our Laboratory section!

THOMAS FURNITURE CONFIGURATORS

Thomas Chairs: [Build Your Thomas Chair Online Now!](#)

Our laboratory chairs feature the latest advancements in laboratory ergonomics, such as contoured waterfall cushions and 6-way armrests, for improved posture and blood circulation. Styles: Chairs, Stools, & Stools with Backs.

Treston Online [Workstation Configurator](#)

The Treston 3D Design tool allows you to design and build your own customized workstation from frame to accessories. You can see the workstation take form on your screen, and are able to submit it directly to us for a quote upon completion.

		
Concept Workbench Versatile bench with widest range of accessories. Easy to customize. Electric, crank and standard frames. • Available with ESD protection • Suitable for regular use with weights up to 1100 Lbs. Configure Now	Cornerstone Heavy-duty bench suitable for a wide range of applications. • Available with ESD protection • Suitable for regular use with weights up to 2000 Lbs. Configure Now	TP Workbench A cost-effective basic bench with excellent range of accessories. For wide range of tasks. • Available with ESD protection • Suitable for regular use with weights up to 661 Lbs. Configure Now

Thomas Scientific Furniture is a commitment to Customer Satisfaction. From Start to Finish, we offer complete Customer Support.

— WORKFLOW CONSULTATIONS

WORKFLOW CONSULTATION

Complimentary Workflow Evaluation from Thomas Scientific

Ready to get scientific? After reviewing your checklist needs with your Thomas Sales Representative, schedule a FREE consultation with our in-house PhD'd scientific workflow specialists. Speak in the specific scientific language around the following workflows and more:

Cellular imaging and analysis

Cloning and protein expression

Nucleic acid isolation

PCR and electrophoresis

Protein analysis

Protein isolation and purification

Real-time PCR and sequencing

Synthetic biology, genetic engineering and services

Need Some Help?

Our experts are standing by, to offer you a free custom workflow consultation. Visit our [Diagnostics](#) page to get started today! Our team will get back in touch with you soon to help create a custom solution for your high-complexity diagnostic testing lab. We look forward to working with you and being your partner.
