ADVANCED MECHANICAL PROTECTION

## 11-531

Palm Dipped Light Duty gloves  
with INTERCEPT™ Technology and  
ANSELL GRIP Technology™

Light Duty

Cut-Protection

**Exceptional grip performance  
in a comfortable ultralight weight  
cut resistant glove.**

The 11-531 epitomizes the convergence of protection and performance. It features an 18G ultralight weight liner with INTERCEPT™ Technology yarns that provides EN Cut Level 3 protection. The liner also features ZONZ™ Comfort Fit Technology for breathability and ergonomic movement. The palm dipped coating and the FORTIX™ Technology formulation provide enhanced abrasion resistance and grip. To provide all four advanced performance technologies, including EN Level 3 cut protection, in a comfortable, flexible ultralight weight style, is a game changer for applications where workers have traditionally guarded against cut risks with heavier styles that limit their dexterity and breathability.

#### Industries

- Aerospace
- Automotive
- Machinery and Equipment
- Metal Fabrication

#### Applications

- Assembly of small sharp parts
- Handling small sharp metal parts
- Light duty stamping
- Maintenance

#### Performance Profile

##### Best-in-class Cut Resistance Technology

New-to-the-world INTERCEPT™ Technology yarn has been designed to exceed industry standards. This Ansell proprietary technology offers best-in-class cut protection and increased comfort with dexterity.

##### Enhanced Grip Performance

ANSELL GRIP Technology™ is a coating treatment that minimizes the force required to grip oily or wet tools or materials, reducing hand and arm fatigue and improving control, safety and productivity.

##### Advanced Abrasion Protection

FORTIX™ Technology applies a thin, resilient and breathable nitrile foam coating, which extends gloves' working life and improves comfort in abrasive applications.

#### Key Features

##### Barehand-like Tactility

Ultralight weight glove that offers unparalleled dexterity and refined mobility.

##### Comfort Fit Technology

ZONZ™ Technology uses selected yarns and varying stitch designs to tailor overall glove fit to enhance hand movement for higher dexterity and reduced fatigue.

##### Silicone-free

Silicone free design is paint and finish process friendly.

##### Dirt-Masking Color

Dirt masking palm for longer wear times.

#### Performance Standards
