

NEW! Our most popular Accuris reagents are now available in BULK
Up to 5000 reactions, for high throughput requirements

- Pathogen Detection
- Clinical Assays
- Cannabis testing

To accommodate the requirements of high throughput users, Accuris is now offering their full line of qPCR and RT-qPCR reagents in bulk packaging at highly discounted prices. Bottle sizes of 25ml (2500 reactions) and 50ml (5000 reactions) are available for **qMAX SYBR Green** and **qMAX Probe** mixes. **One Step RT-qPCR** kits are also available in bulk format for 2500 and 5000 reactions and are ideal for labs performing pathogen detection.

All qPCR and One Step reagents are in stock for immediate delivery. Discounts available for volume purchases.
