

## Product Datasheet

**Product code:** **4WF.SA.1**

**Product type:** Wafer Tweezers

**Made in:** Switzerland

**Description:** Type 4WF wafer tweezers are suitable for delicate applications which require holding a 3-inch flat component firmly. The line serration provides the handles with extra grip. The bent paddle helps to hold the component still during positioning.

**Tip description:** handling 3", top fingers, stepped bottom paddle

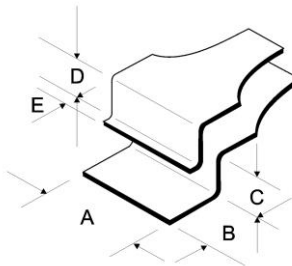

**Body material:** Anti-Magnetic Anti-Acid Stainless Steel
