

Micronova[®]

MANUFACTURING INC.

Your strategic supplier for critical cleaning

CLEANING TOOLS FOR THE CANNABIS
PROCESSING INDUSTRY

Excellence in cleaning since 1984

As treatments from Cannabis (cannabidiol, CBD) continue to be recognized as viable therapies – addressing conditions from epileptic seizures to chemotherapy-induced nausea – those companies involved in commercial production are ramping up to meet ever increasing demand.

Since CBD treatments do fall under the purview of Health Canada and the FDA, so too does the review of production, safety, and efficacy so control and consistency of the production process is key for any regulatory body.

Micronova has a range of cleaning tools that address some of the less conventional production methods used from drying, cutting and extraction to formulation and filling.

PocketMops™

A lightweight, economical mop which can be used – wet or dry – to clean or disinfect in controlled environments and cleanrooms.

- A variety of fabrics available for added absorbency and cleaning strength, including mesh for removing viscous residues.
- Foam interior allows for optimum dwell time of disinfectant
- Fits on QPSL plastic frame with 360-degree swivel and 180-degree motion lock for added control. Stainless Steel option is available.
- Compatible with strong disinfectants and steam sterilization
- Available gamma-irradiated for aseptic areas

PocketMop, PolySorb, Textured Polyester, 14", 35 cm	PKM11-14
PocketMop, Blue Microfiber, 14", 35 cm	PKMAA-14
Plastic Mop Adapter, 14", 35 cm	QPSL-14
Plastic Mop Handle, 48", 120 cm	STAH-48WH

MegaWringer™

Lightweight and portable downward press wringer for consistent wringing of flat head mops. The wringer boasts an ergonomic, one-hand action. The mop handle slides into the wringer grip, providing leverage to create optimum wringing pressure.

- Lightweight and durable – weighs less than 5 lbs.
- Molded Polyketone and electropolished Stainless Steel.
- Fits on single, double or triple bucket systems – no cart required.

MegaWringer W-94

BucketBinder™

Polyketone 'hooks' firmly secure two or three rectangular buckets together to instantly form a multi bucket system, which can be scaled up or down as required.

- Less than 2lbs per pair, BucketBinders hold up to strong disinfectant, can be autoclaved and irradiated.
- Fits the B-7 AC series rectangular buckets

Double BB-DBL-DBYE

Triple BB-TR-DBREYE

Cleanroom Surfaces

Free-rinsing and filtered to 0.1 micron..

NovaClean® and NovaHol® Detergents

NovaHol, a ready-to-use formula, easily cuts through residues, oils, and resins found on cutting and trimming surfaces.

The NovaClean concentrate is ideal for general cleaning of walls, floors, ceilings, and other surfaces. Micronova detergents are biodegradable.

NovaHol, NovaClean/IPA

1 Gallon NH1-G

NovaClean Floor Clean

1 Gallon NC1-G

String Mops

Consider Microfiber string mops when higher absorbency and more efficient pick up is required, such as in trimming/packaging rooms.

NovaSorb™ Poly Cellulose String Mop

An economical and absorbent poly-blend mop that works well for general cleaning and disinfection.

NovaSorb Mop JZCRMS-WH
Clamp Mop Handle MHC-1

BucketLiners™

An impermeable barrier/liner for buckets and storage and transport containers

- LDPE/Nylon laminate is excellent for disinfectants and cleaning solutions
- Ideal for parts and raw material transfer
- Available in a range of sizes

Regular, 31x19", 75x50 cm
BKL7-3119

Sterile, 31x19", 75x50 cm
BKL7-3119IR

Slim-T Mops and Squeegees

Where debris and moisture may build up, squeegees or a squeegee action mop can be the perfect solution

The MicronovaCleanroom

Slim T™ Mops are as absorbent as a flat mop with the benefit of a squeegee action.

Ideal for equipment, soft walls and flat panels, the mop covers easily slip onto the 180-degree swivel T-Mop™ frame or the **Window Washing Tool** with attached squeegee blade.

Ask your rep for handle options.

Slim-T Mop Cover, Microfiber, 12", 30 cm

Equipment and Work Surface Cleaning

MegaSwats™

MegaSwats are flexible enough to clean around heavy equipment, in and around vents and under floor scales and other calibrated equipment.
Ask your rep for handle options.

MegaSwat Adapter, HDPE, 16", 40 cm QDMS-16
MegaSwat Mop, Microfiber, 16", 40 cm MSAA-16NS

MittWipes™

With a number of fabric finishes, the MittWipe allows increased dexterity over standard wipers and is an ideal method for intricate cleaning on stainless steel tables and equipment.

Ideal to use with Micronova Stainless Steel Cleaner

Mitt Microfiber MW-AA
Mitt Microfiber with foam interior MWDT-AA11
Stainless Steel Cleaner SC1-P

Plastic Brushes

Micronova Plastic Brushes made from FDA approved materials are effective for cleaning with or without optional fabric covers.

Plastic Tube Brush, 1", 2.5 cm diameter BRPL-118
Plastic Fine Clean Brush, .5x.5x7 in, 1.2x1.2x17.5 cm BRWH -74
Cylinder (dome) Brush, 7", 18 cm diameter BRWH-02

Small Tools & Mop Covers

Light and easy to maneuver.

The **Micronova Hand Held Mop** conforms to the hand, then smoothly glides over surfaces for a complete clean or sanitization.

- Polyketone version is very durable, autoclavable.
- Polypropylene version is reusable and then recyclable.
- Use with Hand Held Mop Covers in Microfiber, PolyMesh Sponge, and simple NovaPoly Polyester
