

LAB WATER SURVEY FORM
NEEDS AND APPLICATIONS

WHAT IS THE APPLICATION

- HPLC, Ion / Gas Chromatography / MS, Clinical Analyzer Feed, Instrumentation Feed, Tissue Culture Research, Reagent Grade Solution Make-Up, Glassware Washer, BOD/COD, USP Purified, Trace Metals Analysis, Protein Purification, Mass Spectroscopy, RNase Free Water, General Demineralization, Other

WHAT IS THE WATER REQUIREMENT

- Type I - CAP / NCCLS, Type I - ASTM, Type II - CAP / NCCLS, USP - Purified, Type III - CAP / NCCLS, Special Requirements

WHAT DO YOU USE CURRENTLY FOR A LAB WATER SOURCE

- N/A New Lab, Buy Bottled Water, House DI, Lab Water System, Brand, Approx. Age

WHAT IS THE FEEDWATER QUALITY

- Reverse Osmosis, Distillation, Service Deionization, Tap Water, Central Loop / DI, Tap Water Characteristics: TDS, pH, TOC, Alkalinity, Hardness, Pressure

TECHNICAL REQUIREMENTS

- What is the volume of water usages per day (liters/day)?, What are the dispensing requirements (liters/min)?, Is a drain available?, Are there space limitations?, System Configuration, What are the voltage requirements?, Additional Technical Requirements

SPECIFIC OPTIONS

- Recirculating Dispensing Gun, Ultrafilter, UV, Flow Totalizer, Direct Feed Port, Wall Mounting Bracket

CONTACT INFORMATION

Company Name, Address, Contact Name, Phone, E-Mail

REPRESENTATIVE CONTACT INFORMATION

Company Name, Contact Name, Phone, E-Mail

- What is the time frame for this purchase?, How did you hear about Aries FilterWorks?, Immediately, Web Search, Other, 3 Months, Trade Magazine, 6 Months, Trade Show, Unknown, E-Mail Contact
