

# INTRODUCING EMist® EX-7000

The only intelligent electrostatic disinfectant sprayer that make spaces healthier.

> If you're doing work professionally and looking for the best lightweight electrostatic backpack sprayer, the EX-7000 is the tool you've been waiting for. The unit is compact and is the best option to ensure even application, increased coverage, and reduced chemical and labor costs.

Lightweight at just 8.1 pounds bare and only 14.9 pounds fully loaded, the EX-7000 is 51% lighter than other systems, cordless, and easy to operate. It's the most compact high-performance electrostatic backpack sprayer you can get your hands on. The EX-7000 goes where you want to go comfortably, quietly, and quickly.

A complete system includes backpack, tank, sprayer, harness, two batteries, charger, robust training toolkit, 1-year warranty and protected MAP pricing.

51% LIGHTER THAN OTHER SPRAYERS

**USES ANY WATER-**SOLUBLE CHEMICAL 44,300 sq.ft. HIGH-TOUCH POINT COVERAGE

**EPIX Charge** Detect™ GROUNDING **NOT REQUIRED** 

**DECREASED LABOR** & CHEMICAL COSTS

**INCREASES MOBILITY** 

# **PRODUCT SPECS**

Model Number	EX70BPBD01	Spray Distance	24-36"		
TruElectrostatic™	Yes	Dimensions	18.5" X 9.5" X 6.25"		
Weight (loaded)	14.9 lbs (6.8 KG)	Chemicals	Any water-soluble		
Weight (empty)	8.1 lbs (3.7 KG)	Battery(s)	14.4 V Lithium Ion (2)		
Weight (shipping)	15.8 lbs (7.2 KG)	Charger	14.4 V		
High-touch Coverage	44,300 high-touch sq.ft.	Battery Life	2 hours continuous		
Tank Capacity	0.82 Gal / 3.1 Liters	Warranty	1-Year		
Cordless	Yes	Complete System	Backpack, Tank, Sprayer, Hamess, 2 Batteries,		
Polarity	Bipolar (+ and -)	Includes	Charger, Training Toolkit and 1-Year Warranty		
Grounding	Not required	Certification Course	Available - Health-e Online 5-Module Course		
Droplet Size	75 microns				

# **Tru**Electrostatics. **Tru**Disinfection<sup>™</sup>. Intelligent Electrostatic Sprayers.

#### → TruTechnology: EPIX Charge Detect Technology

The electrostatic sprayer continuously detects the polarity of the user and the equipment and adjusts automatically so that grounding is never an issue. The discharged droplets wrap around surfaces. This wraparound effect creates an even, consistent and comprehensive coverage of chemical, reduces chemical use, and provides superior results.

#### TruCharge: Best Performance

Electrostatic sprayer polarity matters. Most environmental surfaces have a negative or neutral charge (the earth itself is negative). Per the EPA, electrostatic sprayers should impart a positive charge so that the positively charged disinfectant droplets are attracted to targeted negative or neutral surfaces. Positively charged droplets increase droplet adhesion and wrap reducing chemical and labor costs.

#### TruAssurance: User Safety

Per the EPA, median droplet size should be greater than 40 microns. Droplets must be large enough to resist evaporation and drift but small enough that the droplets can change their trajectory when it comes close to a target. Most sprayers produce droplets of < 40 microns making them highly drift-prone and increasing user inhalation concerns. EMist droplet size is 75 microns.

#### TruConfidence: Patented. Proven. Trusted.

When you're dealing with deadly pathogens, you want to make sure that the company you're buying equipment from is reputable, experienced, and trusted. EMist systems are patented, used during the 2014 Ebola crisis, and developed by electrostatic industry veteran Mike Sides, who frequently works with the DOD, Naval Entomology Center of Excellence, USDA, and WHO.

#### ✓ TruDesign: Safer Operation

When spraying big areas, big buildings, or tight spaces, a cordless sprayer allows you to maneuver and move about freely. EMist sprayers are ergonomic, lightweight, and cordless. That means you can take the sprayer to where the work needs to be done rather than relying on wall outlets at the work site. Portability is a clear advantage for any user who needs to go where the work is to get the job done right.

#### TruCost: Lower Total Cost of Ownership

Based on the need to disinfect large areas, manual application of disinfectants is a thing of the past. Electrostatic application is the new normal. Customers who use our systems typically see 25% to 45% labor savings and 35% to 50% chemical savings. Competitively priced, advanced and patented electrostatic technology, and proven performance provide an overall lower total cost of ownership.

### PRODUCT DETAILS

# **SYSTEM INCLUDES**

- Backpack
- Tank
- Sprayer
- Harness
- 2 Batteries
- Charger
- Training Toolkit
- 1-Year Warranty
- Protected MAP Pricing
