

CE-FORCE CLEAN PACKAGING

CUSTOMER CHANGE NOTIFICATION

CE-Force Clean Packaging products are produced to the highest levels of quality for cleanroom environments. To maintain this quality in the shipping process, several part numbers have been changed due to manufacturing pack quantity adjustments. These adjustments will improve shipping and storing capacity.

What hasn't changed:

- Type or source of Material
- Manufacturing Site
- Quality Inspection
- Product Performance
- Lot Traceability

What to Expect:

- Transition will occur over the next few months. Each part number will change as stock depletes.
- The switch will occur automatically when our stock of the former part numbers are depleted. You will be notified of required changes to your purchase order.
- Your Thomas Scientific sales representative will support any change requirements you have established.

New Part No.	New PK Qty.	New CS Qty.	Former Part No.	Former PK Qty.	Former CS Qty.	Material	Thickness	Size
