

MycoGenie Mycoplasma Detection Kit

Visual Mycoplasma Detection

Visual Mycoplasma Detection

Detect Mycoplasma with a simple visual color change!

Rapid Cell Culture Results

1-step, 60-minute assay with no special instrumentation required

Highly Sensitive Assay

Detect as little as 500cfu Mycoplasma in 1ul of cell culture supernatant

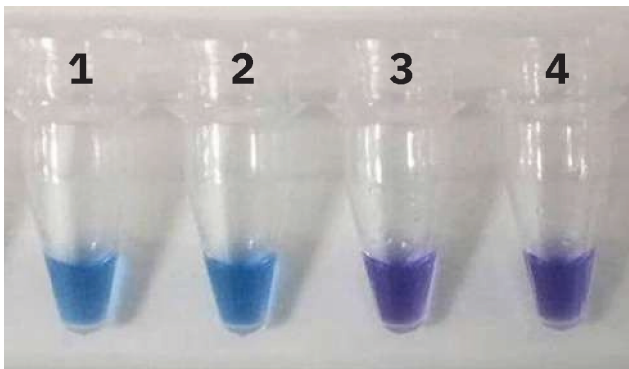

Widely Validated

Detect up to 28 Mycoplasma species that contaminate cell cultures

Cost-Effective

Low-cost alternative to PCR, QPCR & ELISA detection methods

Visual detection of Mycoplasma contamination

Tube 1: Positive Mycoplasma Control

Tube 2: Day 0

Tube 3: Mycoplasma Eliminated Sample

Tube 4: Negative Control
