Experience the future of pipetting

With the ClipTip pipetting system, we are helping to redefine precision and confidence in your everyday work. Here's why you should make the switch:

- **Secure tip locking**—helps ensure that your tips stay securely in place, eliminating the need for forceful tip attachment
- **No loose tips**—no more worries about loose or leaking tips; the system remains sealed until you decide to eject the tips
- **Consistency and reproducibility**—achieve high-quality results and more efficient research with consistent pipetting from user to user
- **A better system design**—reduces the effort required to attach and detach the system, helping ensure the utmost accuracy and precision

Join the ranks of researchers who trust Thermo Fisher Scientific for precision and reliability. Don't miss this opportunity to enhance your pipetting experience while saving on integral research technology.
