TE Buffer

*for research & development purposes only

IBI Scientific's **Tris EDTA Buffer** is synonymous with storage and solubilization of DNA, cDNA, and RNA. Our certified, **nuclease free** buffers are prepared and tested for nuclease activity. Each buffer is prepared using double distilled water that is free of all divalent ions and is terminally **sterilized** using autoclavable packaging. IBI Scientific is the only manufacturer to provide a **certified** nuclease free and **endotoxin free** TE Buffer.
