

UVP GelSolo Series Imagers

The **UVP GelSolo** is a compact, easy-to-use, stand-alone system for gel documentation. It is designed to acquire gel images easily and without any need for training, making it ideal for multi-user laboratories and practical trainings.

- High resolution 5.0 MP camera
- Highly sensitive zoom lens allows for high-contrast image acquisition
- Built-in 11.6" screen with intuitive image acquisition system
- Epi-white and epi-blue LED lights enable a variety of gel imaging applications
- Analyze gels with the included VisionWorks analysis software
- Easy access data storage for saving images on the USB drive, to the system or network computer
- Side access doors for gel repositioning and cutting while viewing the gel on the screen
