**Introducing the NEW labForce balance line,
all backed by our 5 year warranty!**

Where quality meets affordability. You can count on Thomas Scientific for all your weighing needs.

TS-T Series

Advanced weighing performance with maximum ease of operation

- The TS-T Series balances feature the latest generation display with the option to design your own display.
- Built in data safety and a wide array of available interfaces.
- Includes automatic adjustment enabling precise weighing performance.

TS-L Series

Standard weighing for highly precise measurement

- The monoblock components of the TS-L provide fast measurement and repeatability.
- The weighing results are displayed on an easy-to-read LCD screen.
- Available with or without internal calibration.

TS-P Series

Portable weighing for educational and light industrial use

- Operate in the field or move from lab-to-lab. All TS-P Series come complete with a Power Adapter and an internal rechargeable battery.
- The LabForce TS-P Series balances are the solution for organizations with limited budgets.

TS-E Series

Economy level balances for basic weighing needs

- Priced right for organizations demanding performance on a limited budget.
- Operate on a bench top with standard AC power, or operate with batteries when moving from lab-to-lab.
- Constructed to endure challenging environments from teaching labs to light industrial use.

TS-B Series

Economical weighing for educational and general laboratory use

- All TS-B Series come complete with 12v DC Power Adapter or insert six AA for portable applications.
- The TS-B Series Balances are the solution for organizations with limited budgets.
