

The fastest, most efficient sample preparation for microbiological analysis

Insterprep® is a new range of instantly soluble, sterile, granulated media specifically designed to speed up and simplify sample preparation for microbiological analysis.

With Insterprep®...

- ✓ cut waste and cost
- ✓ manage your laboratory resources more efficiently
- ✓ optimize laboratory workflow

Insterprep® media bags

Instantly soluble pre-measured, sterile media in a Stomacher® bag. Simply add sterile distilled water and your sample as per protocol

Insterprep® sachets

Instantly soluble, sterile media granules, ready to use. Just add to your own Stomacher® bags. Choose the Insterprep® sachet that fits your protocol needs

	No Waste	Low odour/ powder residue	Easy to ship and store	Sample prepared in under 1 min

From Seward, the leading name in sample preparation

seward
the real Stomacher®

Sample Preparation you can trust

Developed by two of the most trusted names in food microbiology – Seward, manufacturer of the original Stomacher® paddle blenders and bags, and HiMedia Laboratories, highly respected manufacturer of laboratory culture media - Insterprep® has been created to help laboratories increase capacity and respond to varying workflow requirements. Manufactured to ISO standards, Insterprep has been tested and proven independently by the world renowned Leatherhead Food Research Agency.

Cut waste and cost

- Reduce costs by cutting preparation time and reallocating resources
- Minimize waste by just preparing what you need
- Eliminate bottlenecks. No more waiting or workflow delays

Manage your laboratory resources more efficiently

- Respond flexibly to the demands of a busy schedule
- Increase productivity through better control of lab resources and output
- Improve your Laboratory workflow

Dependable results for real confidence

- Accurate, reliable sample preparation
- Visible traceability
- Manufactured to ISO standards

Insterprep® pre-weighed, sterilized media bags come with the correct amount of granular media, ready for instant use. Simply select the Insterprep media bag required, add sterile water and your sample and place into your Stomacher for blending. That's it!

NO waiting

NO worries about contamination

NO waste

**NO fuss. Just fast, accurate sample preparation
so you can focus on the results!**
