

Price List Update

Effective Date: Monday, June 8, 2026

Dear Valued Distributor Partners,

Ongoing global supply chain disruptions, including impacts from the Middle East conflict, continue to affect cost structures across the industry.

Through disciplined supply management and a strong inventory position, PIP has successfully mitigated these pressures for an extended period. However, sustained cost increases within disposable and extended-use glove categories now require a targeted pricing adjustment, effective June 8, 2026.

This adjustment applies exclusively to disposable and extended-use disposable gloves, with increases not to exceed 20%. No other product categories are impacted at this time.

PIP remains committed to maintaining supply continuity, delivering consistent service, and providing transparent communication. We will continue to monitor market conditions closely and will provide advance notice of any future changes.

We appreciate your continued partnership and trust in PIP. For questions or support, please contact your PIP representative or our Customer Service team.

Warm regards,

Daniel L. Taft
