

THERMOMETER RECERTIFICATION PROGRAM ORDER FORM

HOW OFTEN SHOULD A THERMOMETER BE RECERTIFIED?

Many factors determine recertification of thermometers, such as usage, temperatures measured, in-house procedures, and regulatory agencies' guidelines and policies. As a general guideline for good laboratory and manufacturing practices, thermometers should be recertified or validated on an annual basis.

Please return the included card if you would like to receive a recertification reminder.

The Recertification Program Consists of:

- Complete visual inspection for any physical damage.
- If possible the damage will be repaired.
- Thermometer readings are compared against N.I.S.T. standards in high precision calibration baths using the comparison method at determined test temperatures.
- Each temperature is recorded to 1/10th of a scale division.
- A calibration report is generated detailing the pertinent information including the correction factors for each test point.
- All calibration information is entered into the THERMCO data storage system.
- All certification procedures are performed in accordance with N.I.S.T. and ASTM guidelines, which meet with requirements set by regulatory agencies.

How to Order Thermometer Recertification

- 1) Place an order with Thomas Scientific for the type of recertification you would like:

Item No.	Recertification Description
1219Y49	1 Temperature Point
1219Y50	2 -4 Temperature Points
1219Y51	5-9 Temperature Points
1219Y52	10-15 Temperature Points
1219Y48	Bottle Thermometers

- 2) Send the following items to Thermco:

- this completed order form
- carefully-packaged thermometer(s)
- a copy of the current calibration certificate(s) – (recertification will be taken at the same test points)

Address:

Thermco Products, Inc.
Attn: Calibration Lab
10 Millpond Drive
Unit #10
Lafayette, NJ 07848

Please contact Thomas Scientific at 1-800-345-2100 with any questions or requests.
