Starsys® XD
More Capacity.
Better Access.

±20°

angle for optimal visibility
and supply containment

Get a little extra out of your supply management process with Starsys® XD.

Extra Deep (XD) design creates added capacity for increased storage space. The added space accommodates longer items and presents a novel lean two-bin approach for protected supply management. Shelves can be repositioned easily and can be set from horizontal up to a ±20 degree angle for (-) supply containment or (+) optimum visibility and accessibility, especially for the upper shelves.

CLEAN DESIGN

CLEANER BY DESIGN®

*Microban protection is not designed to protect users against disease causing microorganisms.

• Microban® antimicrobial protection helps to keep products "cleaner between cleanings."
• Advanced polymer and other proprietary finishes provide corrosion resistance.
• Smooth, rounded corners to allow for easier cleaning.

MICROBAN
PROTECTION THAT LIVES ON

Extra Efficiency.

Cabinet and shelves facilitate two-deep, two-wide, or two-high bin configurations for an efficient Two-Bin process.
Two Deep

Two Wide

Two High

XD design with low-profile shelf allows for maximum space efficiency.

XD design with shelves installed at an angle also accommodates the deeper bins available from automated supply cabinets.

Available with clear doors to provide easy visual access without compromising protection of contents.

NOTE: Delivered shelf configuration standard with (8) XD shelves installed at a 20° up angle.

Extra Versatility.

A variety of sizes, door pull colors, and locking styles allow you to customiize a design that is tailored to your environment.
