

Product Datasheet

Product code: **ES552GTX.CR.BGO**

Product type: High Precision Hard Metal Cutters

Made in: Switzerland

Description: The 552GTX is a high precision cutter belonging to the large Tungsten Carbide cutters family. The tapered and relieved geometry combined with the arrow geometry of the tips offer the best advantage to access small areas, while the 552GTX head dimensions support the cut. The full-flush cutting edge is suitable to perform very clean cuts on the hardest wires. The 552GTX is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The Tungsten Carbide insert blades are 82HRC hardness.

Head description: Large Tapered & Relieved, Tungsten carbide

Cutting edges: Full-Flush

Cutting capacity: soft wire 0.05-0.15 mm (44-34 AWG)

Blade material: tungsten carbide

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle coating: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP

Picture:

Dimensions:
 OAL 123 mm – 4.843 inch
 Width 60 mm – 2.362 inch
 Height 18 mm – 0.709 inch
