

Logic⁺ Class II Biosafety Cabinets

Designed, for humans.

Biosafety cabinets help make the world a safer place.
Containing infectious outbreaks. Finding new cures.
Helping someone beat cancer. Protecting all living things.
Biosafety cabinets enrich our lives in so many ways.

By definition, they are built to keep you, your work and the environment safe. But there is a human element to safety. Unlike other cabinets, the Logic+ design considers the impact of human nature on safety that goes beyond just ergonomics. To the root of what connects us - human nature.

We call it Inclination Technology™. Features that reinforce what humans are inclined to do. So you experience less fatigue, fewer distractions and more comfort. Because we know what's at stake. Labconco. Designed, for humans.

LABCONCO®

The Labconco difference.

Safety. The Logic+ goes beyond the current conventional Biosafety Cabinet (BSC) standards. A line-of-sight display for feedback on your cabinet's safe operation while seated. A filter life display instead of confusing pressure readings. Alerts and alarm messages are shown in full sentences.

Performance. Work smarter with the Logic+. Built-in system intelligence accurately maintains proper airflow, even as the HEPA filters load. This precision is achieved by pairing an Electronically Commutated Motor (ECM) with our exclusive Constant Airflow Profile™ (CAP) Technology.

Comfort. We've been at the forefront of BSC design for decades. Consider our angled sash that we pioneered in 1983. It gives closer viewing without glare. We thoughtfully design every feature to account for human interaction with the cabinet.

Safety, performance and comfort you can rely on. That's the Labconco difference.

Logic⁺ Class II Biosafety Cabinets

Performance Features

Efficiency with ECM.

Electronically Commutated Motor (ECM) blowers have many perks over conventional BSC motors.

- Consumes 60% less energy (see table below)
- Quiet operation (<63 dBA)
- 50,000 hour average motor life
- Reserve power for extended filter life
- Generates less heat for cooler working conditions

Airflow stability with CAP.

Constant Airflow Profile (CAP) monitors and maintains ECM airflow. Speed and torque are constantly adjusted to keep airflow within 1% of original calibration. CAP outperforms differential pressure gauges and airflow sensors. How? Gauges and sensors require manual adjustment by a certifier when a decline in airflow is detected. A certifier can only verify safe airflow for a single moment in time. With CAP, safe airflow is assured all the time.

Energy Usage, Operating Costs & Comparison

	Logic+	Other Cabinet A	Other Cabinet B	Other Cabinet C

*Using a commercial business energy use cost of \$0.0988/kWh and an industrial energy use cost of \$0.0673/kWh.

**Continuous operation of cabinet using Night-Smart reduced flow setback mode. Calculations based on using Night-Smart idle setback 16 hrs/day for five days/wk and 24 hours day for two days/week, 52 week calendar year.

***Costs of HEPA filters, service and replacement parts are approximations, not an estimate or guarantee of any kind.

††Service cost includes annual certification (\$150/yr), decontamination (\$450/incident), and incidentals.

Logic⁺ Class II Biosafety Cabinets

Safety Features & Benefits

Easy to decontaminate

Constructed with Type 304 stainless steel and safety glass.

HEPA filters

Are 99.99+% efficient, creating an ISO 5 environment. ULPA option available.

LED lighting

Brightly illuminates interior for maximum visibility.

❖ Reserve-Air[™] Inflow Slots

maintain safe airflow should portions of the grille be inadvertently blocked.

Constant Airflow Profile

Continuously monitors and maintains inflow and downflow to protect users and samples.

Tempered safety glass sash

Audible/visual alarm indicates when the sash is above or below its working height.

❖ **MyLogic[™] OS** conveniently displays cabinet information on line-of-sight screen.

❖ **Vacu-Pass[™] Cord & Cable Portal** for safe passage of cords and tubing.

LCD Information Center builds user confidence by clearly displaying cabinet's status including filter life, blower condition, alerts, and alarms

Shown with optional inflow and downflow sensor kit

Sash height alarm shown

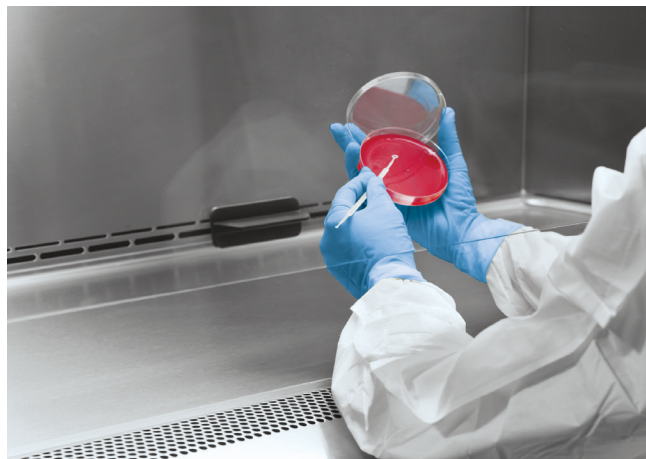

❖ Labconco exclusive feature

Logic[®] Class II Biosafety Cabinets

Comfort Features

Line-of-sight display and touchpad controls are within reach while seated.

Curved inlet grille provides comfortable area to rest arms. No additional armrests are needed.

Lift knobs on front corners of the dished stainless steel work surface allow for easy cleaning.

Electrical outlet cover may be opened with one finger and then gently and slowly self closes. Mounts flush and flat against the side wall for complete decontamination.

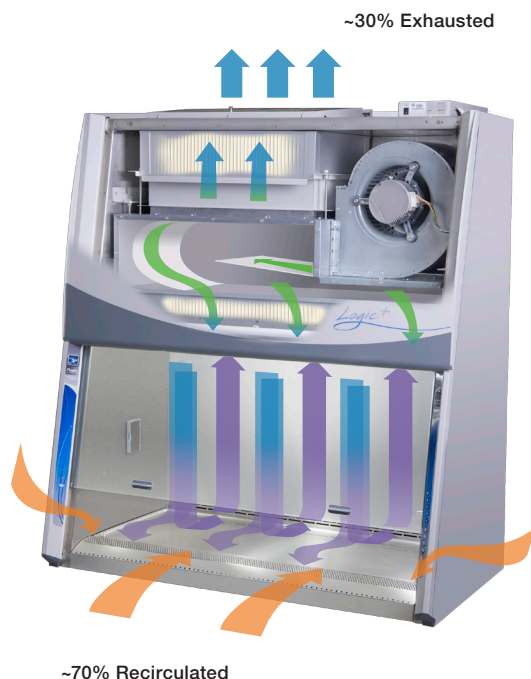

- **Large interior** with most cubic feet available anywhere
- **LED lighting** provides 90-150 footcandles and is glare-free, exceeding NSF requirements

- **ECM blower** is quieter and cooler than comparable motors
- **Inclined sliding sash** is sloped at 10° for a close comfortable view unobstructed by exterior-mounted sash handles.

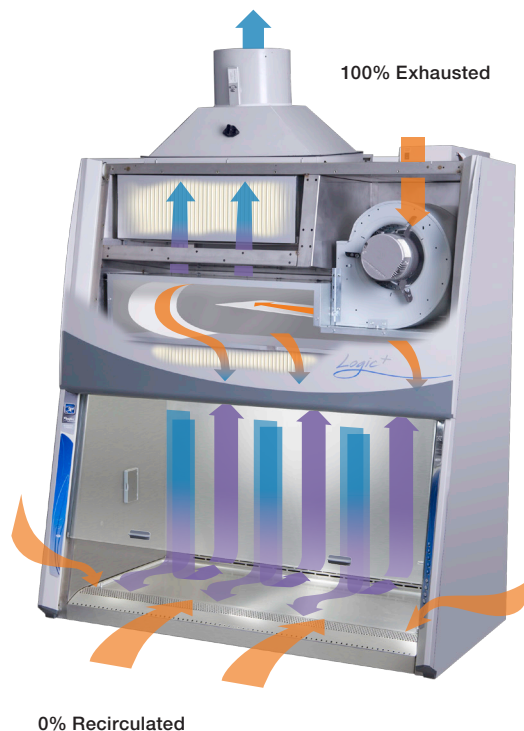

Logic⁺ Class II Biosafety Cabinets

Type A2 or B2 Selection

A2 Airflow

B2 Airflow

Room Air

HEPA-Filtered Air

Unfiltered Air Under
Negative Pressure

Unfiltered Air Under
Positive Pressure

Room air is drawn into inlet grille. Air in plenum beneath work surface is a mix of unfiltered room air, and air from the work area. The blower draws this contaminated air through back plenum of the cabinet, where approximately 70% of the air is recirculated through the supply HEPA filter and back over work area. The remaining air is discharged to the environment after passing through exhaust HEPA filter.

Room air is drawn through top of cabinet. The air is HEPA filtered before flowing down through the work area. Room air is also drawn into the inlet grille. All of the contaminated air is drawn under the work surface, then up the rear plenum and through the exhaust HEPA filter. A dedicated remote blower and exhaust system draw 100% of filtered exhaust air out of the lab.

We're here to help.

When you're ready to complete the selection process, we make it easy. Go to labconco.com to see all biosafety cabinet models and accessories.

Prefer to talk to a biosafety cabinet application specialist? We'd love to help. Just call us at (800) 821-5525 or (816) 333-8811.

Cell Logic[®] Class II Biosafety Cabinets

Optional Features & Benefits

Special features for specialized work. Cell Logic+ models are designed with sensitive microscopy in mind. Options for integrated viewing, vibration and temperature control that keeps you happy, and your cells happy.

Scope-Ready[™] Package. Enhances comfort and performance when using a microscope in the cabinet.

Pure-Vu[™] Seal. Made of clear, flexible material. Prevents contaminants from escaping while providing visibility into the cabinet. NSF 49 and Modified ASHRAE 110 tested. An accessory XL Seal is available for large microscopes.

Stand-Still[™] Isolation Platform. Supports the microscope on the cabinet's work surface to reduce vibration threefold. Seamless Type 304 stainless steel. Easy to clean and autoclavable. Two sizes available. Sold separately. NSF 49 tested.

Temp-Zone[™] Package. Creates a temperature-controlled area on your work surface for sensitive cells. Works with a user-supplied circulator to maintain uniform surface temperature. Easy-Clean[™] Prop Rods elevate work surface for hands-free cleaning. 10.5" w x 12.0" d (7.0" x 12.0" on 3' models).

Temperature-controlled area

Easy-Clean Prop Rods

Pure-Vu Seal

Logic[®] Class II Biosafety Cabinets

Optional Features, Benefits & Accessories

Accessory Package NSF approved. Work safer and smarter with a pre-installed UV lamp, service fixture and Vacu-Pass Cord and Cable Portal.

Service Fixture. Ball-type valve supplies water, vacuum, air or noble gases to cabinet interior. Serrated tip with quarter turn handle is mounted 8.5" (20 cm) above the work surface to maximize usable surface area. Max 40 psi. Accessory Package includes one right-hand service fixture (3', 4', and 5' models) or one service fixture on each side (6' models).

UV Lamp. For secondary decontamination while cabinet is not in use. Safety switch permits operation only when sash is completely closed. 254 nm.

Vacu-Pass Cord & Cable Portal. Negative pressure port allows passage of a cable through right-side wall. NSF approved.

Telescoping Base Stand. Available with all models. Adjustable legs allow for height adjustment during installation. Includes shelf. Unassembled design reduces waste by shipping with the cabinet. Provides working height of 30" - 37".

Ventus[™] Canopy Connection. Allows for thimble ducting of Type A2 cabinets to the outside. For applications involving unpleasant smells, small amounts of volatile toxic chemicals and tracer quantities of radionuclides. See page 21.

Logic⁺ Type A2 Biosafety Cabinets

Specifications

All models feature:

- Electronically Commutated Motor (ECM)
- * Constant Airflow Profile (CAP) airflow monitoring system
- Intrinsically-safe negative pressure design
- * Air-Wave™ Entry System*
- * Contain-Air™ Negative Pressure Channel*
- Supply and exhaust 99.99% efficient HEPA filters. 99.999% efficient ULPA filters available
- * Interior-mounted, line-of-sight color LCD with MyLogic OS. Displays filter life, status messages for alarm conditions and alerts. 8 languages
- Bright, 90-150 footcandle, glare-free LED lighting located outside the contaminated work area
- Fully-closing, clear 1/4" tempered safety glass sash
- * Curved stainless steel inlet grille with Reserve-Air Secondary Airflow Slots*
- * Two electrical duplex receptacles. Flush-mounted-stainless steel with dampened hinges. Single outlets on 230V models. One outlet on each side, with ground fault interruption (115V)
- Smart-Start™ System user-programmable start up & shut down
- Night-Smart™ System reduces blower speed when sash is closed
- Leak-tight stainless steel interior & powder-coated steel exterior
- Removable towel catch located under work surface
- Code-activated electronic security lock
- * 22.6" (57 cm) max. sash opening & 27.0" (69 cm) viewing height
- 10° Angled sash with counterbalanced, easy lift mechanism
- ADA-Compliant touchpad control on right side post
- Noise level <63 dBA

* Labconco exclusive feature

- Heat load 990 BTU/hour (4' models)
- Removable, seamless type 304 stainless steel, dished work surface with lift out knobs
- Nominal inflow velocity of 105 fpm (0.5 m/sec)
- Nominal downflow velocity of 55 fpm (0.3 m/sec)
- Approximately 70% air recirculation
- Overall depth x height: 31.2" x 61.7" (79.2 x 156.7 cm)
- 10' (3 m) power cord with plug
- Built-in timer and digital clock
- Five year warranty

Models conform to the following standards:

- ETL listed
- NSF listed (Logic+ models)
- ADA-compliant (height of controls and receptacles)
- NSF and modified ASHRAE 110 compliant (Cell Logic+ models)
- CE Conformity marking (230V models)
- ISO 5 conditions per ISO 14644-1 and 2

Options include:

- Telescoping base stand with fixed feet
- Accessory Package: See page 9
- * Cell Logic+ Packages: See page 8
- Ventus Canopy Connection: See page 9

All models require (not included):

- Supporting base if non-welded stand option is not selected

*U.S. Patent No. 6,368,206.

Logic+ Type A2 Biosafety Cabinets

Ordering Information

Catalog Number Configurator:

Use this key to configure the nine digit catalog number to order your Purifier Logic+ or Cell Logic+ Class II, Type A2 Biosafety Cabinet.

Select the **CELL LOGIC+ PACKAGE(S)**. This is the second digit of your catalog number.

0 = None

2 = Temp-Zone. Fifth digit is 9 and sixth digit is 1

3 = Scope-Ready. Fifth digit is 9 and sixth digit is 1

4 = Temp-Zone and Scope-Ready. Fifth digit is 9 and sixth digit is 1

Select the **WIDTH** of your cabinet. This is the fourth digit of your catalog number.

3 = 3' **4** = 4' **5** = 5' **6** = 6'

Select the **SASH OPENING HEIGHT**. This is the fifth digit of your catalog number.

1 = 10" **2** = 12"*** **8** = 8" **9** = 9" (Cell Logic+ only)

Select the **ACCESSORY PACKAGE** option. Service fixture(s), UV lamp and cord and cable portal. This is the sixth digit of your catalog number.

0 = None

1 = Includes right-side mounted factory-installed service fixture (two on 6' models, one on each side), UV lamp with timer (UV lamp not included with Scope-Ready), and ride-side wall Vacu-Pass Portal. Comes standard on all Cell Logic+ models.

Select the **TELESCOPING BASE STAND** option. This is the seventh digit of your catalog number.

0 = None

1 = Included

Select the **ELECTRICAL CONFIGURATION** and **PLUG TYPE**. These are the eighth and ninth digits of your catalog number.

01 = 115V, 15/20A, with plug for North America

11 = 230V, with plug for North America

21 = 100V, 15/20A, with plug for Japan

31 = 230V, with Schuko plug

41 = 230V, with plug for China/Australia

51 = 230V, with plug for Great Britain (UK)

71 = 230V, with plug for India

Plug Configurations

115V, 15A
for North America
100V, 15A for Japan

Shipping Weight	510 lbs. (231 kg)	585 lbs. (265 kg)	715 lbs. (324 kg)	805 lbs. (365 kg)
Shipping Weight With Stand	585 lbs. (265 kg)	670 lbs. (304 kg)	810 lbs. (367 kg)	905 lbs. (411 kg)

*Plug is 20 amps, receptacle is 15 amps.

**Available in 4', 5' and 6' widths only. Fourth digit of your catalog number will be 4, 5 or 6.

Logic+® Type A2 Biosafety Cabinet

EN 12469 Certified Model Specifications

Model features:

- 1.2 m (4') wide
- 20 cm sash height
- 230V operation
- Easy decontamination
- HEPA filter extended lifetime—expected life exceeds five years
- Supply and exhaust 99.99% efficient HEPA filters. 99.999% efficient ULPA filters available
- * Quick-sealing sash and louver plate lock to create a leak tight seal so end user can decontaminate before the certifier arrives
- Bright, 90-150 footcandle, glare-free fluorescent lighting located outside the contaminated work area
- Inclination Technology
- * Constant Airflow Profile (CAP) Technology
- * Air-Wave Entry System*
- * Contain-Air Negative Pressure Channel*
- * ADA-Compliant LCD screen with “Filter Life Remaining” graph, status messages for alarm conditions and alerts
- Intrinsically-safe negative pressure design
- Fully-closing, clear 1/4" tempered safety glass sash
- Inlet grille with Reserve-Air Secondary Airflow Slots*
- Leak-tight stainless steel interior & powder-coated steel exterior
- Removable towel catch located under work surface
- Code-activated electronic security lock
- * Interior-mounted, line-of-sight, color LCD with MyLogic OS
- * 22.6" (57 cm) max. sash opening & 27.0" (69 cm) viewing height

- * Curved stainless steel inlet grille
- ADA-Compliant touchpad control on right side post
- * Flush-mounted stainless steel electrical receptacle covers with dampened hinges
- Removable, seamless type 304 stainless steel, dished work surface with lift out knobs
- 10° Angled sash with counterbalanced, easy lift mechanism
- Noise level <60 dBA
- Heat load 990 BTU/hour

3858602	5' Type A2 & B2	5.0 lbs. (2.0 kg)
3858603	6' Type A2 & B2	6.0 lbs. (3.0 kg)

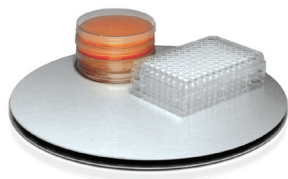

3859100—Cord Manager. Includes three stainless steel hooks and carabiners. Mounts to rear grille. Shipping weight 3.0 lbs. (1.0 kg)

3859000—Interior Shelf. Stainless steel shelf, 8.0" x 5.0" (20 x 13 cm), mounts to rear grille. Capacity: 2.2 lbs. (1 kg). Shipping weight 3.0 lbs. (1.0 kg)

Logic[®] Class II Biosafety Cabinets

Accessories

3852000—Turntable. “Lazy Susan” rotates 360° to bring items within easy reach. Stainless steel surface and ball bearings. 12" (30 cm) dia. Autoclavable. Shipping weight 5.0 lbs. (2.0 kg).

VACUUBRAND[®] BVC Basic Fluid Aspiration Systems. For connection to an external vacuum source such as a diaphragm pump. Mechanical vacuum controller opens when needed to limit gas consumption from the vacuum source. Include coated steel base, autoclavable collection bottle, flow-through aspirator tube and PTFE 0.2 micron filter. Shipping weight 6.2 lbs. (3.0 kg)

Catalog Number	Includes	Dimensions (l x w x h)
3850310	4L Polypropylene Collection Bottle	9.9" x 7.9" x 19.3"
7370001	2L Borosilicate Glass Collection Bottle	9.1" x 7.1" x 17.0"

VACUUBRAND[®] BVC Control Fluid Aspiration Systems. Include chemical-resistant PTFE diaphragm pump, capable of drawing 12 L/min at a vacuum of 150 mBar/112 Torr. Mechanical vacuum controller opens when needed to limit gas consumption from the vacuum source. Touch panel vacuum adjustment from 150-850 mBar, autoclavable collection bottle, flow-through aspirator tube and PTFE 0.2 micron filter. Shipping weight 17 lbs. (8.0 kg)

Systems with 4L Polypropylene Collection Bottle

8022000—Logic Cart. HDP and ABS construction. Overall dimensions: 25.0" w x 19.0" d x 27.0" h (64 x 48 x 69 cm). Shipping weight 50 lbs. (23 kg)

3408500—Sash-Glider Kit. Cleans both sides of sash while cabinet is closed to avoid contamination risks. Includes two microfiber sheets and ten disposable scrubbing strips. Shipping weight 5.0 lbs. (2.0 kg). Replacement strips, (3408600) package of 25. Shipping weight 2.0 lbs. (1.0 kg)

Cell Logic[®] Class II Biosafety Cabinets

Accessories & Pure-Vu[™] Seal Selection

Pure-Vu Seals. Each Cell Logic+ with Scope-Ready package comes with two clear blank seals (one each 4027800 and 4027810). Punch Kit (4027801) is included with each Scope-Ready Cell Logic+. Pre-punched seals sold separately. Shipping weight 0.5 lb. (0.2 kg)

Reference	Catalog Number	Nominal Eyepiece Height*
Not Shown	4027800	Universal Pure-Vu. Blank.
(A)	4027813	13.0" (33.0 cm)
(B)	4027814	14.0" (35.6 cm)
(C)	4027815	15.0" (38.1 cm)
(D)	4027816	16.0" (40.6 cm)
(E)	4027817	17.0" (43.2 cm)
Not shown	4027810	Universal Pure-Vu XL. Blank.
(F)	4027811	16" (+/- 2.0") (40.6 cm, +/- 5.1 cm)

Stand-Still Isolation Platforms. Required for supporting microscopes on Cell Logic+ models with Scope-Ready package. Promotes proper airflow through the cabinet. Reduces vertical and horizontal vibrations threefold. Type 304 stainless steel base with isolation pads. 1.5" high (0.4 cm).

Catalog Number	Description	Shipping Weight
4028200	Stand-Still Platform, 12.0" x 18.75" (30.5 x 47.6 cm)	8.0 lbs. (4.0 kg)
4028100**	Stand-Still XL Platform, 14.0" x 22.75" (35.6 x 57.8 cm)	2.0 lbs. (0.9 kg)

Selecting the pre-punched Pure-Vu Seal that's right for you.

Dimensions shown indicate distance from base of the microscope to centerline of the eyepiece. Blank Pure-Vu Seal (4027800) and Blank Pure-Vu XL Seal (4027810) are not shown below.

1. Measure from the centerline of the eyepieces to the base of your microscope.

2. For inverted scopes with relatively stationary eyepiece height, select corresponding seal with the nominal eyepiece height in the drawing below.

3. For stereo scopes or inverted scopes requiring frequent eyepiece height adjustment, select a Pure-Vu XL Seal (shown right). The XL Seal is designed to be pleated when installed to allow for eyepiece height flexibility of +/-2.0" (5 cm). The Pure-Vu XL Seals extend 5.5" (14 cm) below collar.

*When selecting a seal for a Cell Logic+ Class II, Type B2 Biosafety Cabinet, add one inch to your eyepiece height and use the Pure-Vu Seal chart on this page.

**Requires use of Pure-Vu XL Seal 4027810 or 4027811.

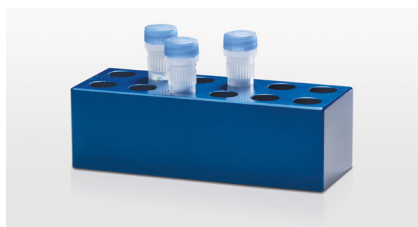

Logic[®] Class II Biosafety Cabinets

Accessories

Universal Tube Baths and Aluminum Tube Racks. Anodized aluminum blocks hold tubes of various sizes. Promotes the conduction of heat or cold from Temp-Zone area to help maintain sample temperature. Universal tube baths hold tubes in an aluminum bead bath and aluminum tube racks hold tubes upright. Thermally-conductive beads are sold separately.

Logic[®] Class II Biosafety Cabinets

Filters, Ductwork, Blowers & Typical Exhaust System

Ventus Canopy Connection. For thimble exhausting Type A2 cabinets. Canopy provides air gap allowing room air to enter the ductwork and mix with the filtered air being exhausted to the outside. Detects insufficient exhaust in less than one second and signals LCD to show an alarm. Alarm increases motor to maximum speed for personal safety. Adds only 1.25" to cabinet height. Powder-coated steel. Collar is 10" (25.4 cm) ID. **Exhaust connection is required. Damper (3776800) and Remote Blower (7068000 or 7068200) are recommended (not included).** Contact Labconco for information on factory installation. Shipping weight 60 lbs. (27 kg)

Catalog Number	For Use With	Total Exhaust Volume (CFM) (Cabinet & Room Air)		
		8" Sash Opening	9" Sash Opening	10" Sash Opening

3889202	5' Type A2	386-470	428-516	470-562
3889203	6' Type A2	453-543	503-598	553-654

3776800—Air-Tight Damper. Mounts atop Ventus Canopy to adjust exhaust airflow and closes for decontamination procedures. Manually adjustable. Type 304 stainless steel. 10" (25.4 cm) high with 10" (25.4 cm) dia. OD inlet & outlet. Shipping weight 13 lbs. (6 kg)

3858800—Backdraft Damper. Mounts in vertical duct run to prevent reverse pressurization of the exhaust system. 3.0" (8 cm) high with 10" (25.4 cm) dia. OD inlet and outlet. Shipping weight 5.0 lbs. (2.0 kg)

Remote Blowers. Required for Type B2 and recommended for canopy-ducted Type A2. Phenolic-coated impeller and housing, powder-coated steel base and weather cover, belt-drive motor with adjustable sheave and self-adjusting gravity belt tightener. Contact Labconco for dimensions and blowers of other sizes and electrical configurations.

Canopy Connection (Type A2 only) or
Hard Duct Connection (Type B2 only)

Contact Labconco for ordering information and technical assistance in selecting the right ductwork for your installation.

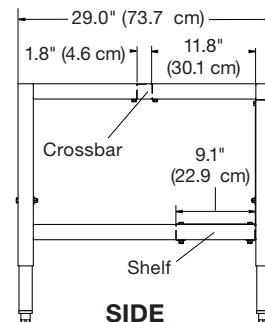

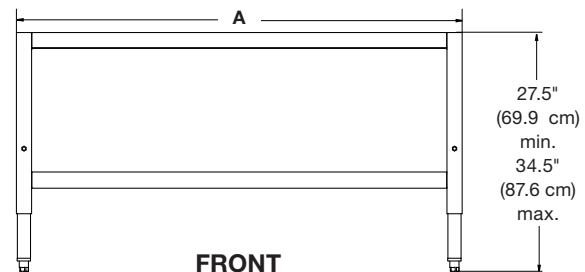

Telescoping Base Stands

- Supports Logic+ and Cell Logic+ models
- Supports loads up to 1,000 lbs. (1814 kg)
- Durable 1.75" tubular, powder-coated steel frame with back panel support
- Telescoping legs are adjustable to eight height positions at installation in 1" (2.5 cm) increments to provide a working height from 30" (76 cm) to 37" (94 cm)*
- **Unassembled.** Easily assembled with simple hand tools
- 9" deep (23 cm) shelf included
- Four fixed leveling feet provided
- NSF-approved
- ADA-compliant (stand height)

Catalog Number	Nominal Width	A	Shipping Weight
3401003	3'	38.5" (97.8 cm)	117 lbs. (53 kg)
3401004	4'	50.5" (128.3 cm)	125 lbs. (57 kg)
3401005	5'	62.5" (158.8 cm)	133 lbs. (60 kg)
3401006	6'	74.5" (189.2 cm)	149 lbs. (68 kg)

Contact Labconco for ordering information on assembled telescoping base stands

3857000—Seismic Bracket Kit. Secures base stand to the floor in earthquake-prone regions. Includes four stainless steel brackets and hardware for attachment to stand. **Hardware to attach to the floor and installation are required.** Shipping weight 10 lbs. (5 kg)

3730500—Caster Kit. For converting telescoping base stands with fixed feet to mobile stands. Kit includes four 5" dia., non-marking polyurethane casters with toe locks and bearings. Load rating for each caster is 250 lbs. Casters add 11" (28 cm) to the overall depth of the base stand. **Installation required.** Shipping weight 10 lbs. (5 kg)

Laptop Computer Arms. For securing laptop within easy view. Mount to front leg of telescoping base stands or front of SoLo Base Stands (see page 24). Articulating arm raises, lowers and pivots. Include powder-coated steel arm and support surface with cloth loop fasteners and mounting hardware. Not for use with other hydraulic lift stands. **Installation is required.**

Catalog Number	For Use With	Shipping Weight
3869300	Telescoping Base Stand	12 lbs. (5.0 kg)
3869200	Solo Hydraulic Lift Base Stand	12 lbs. (5.0 kg)

*Height selection and adjustment are required before enclosure is installed

Hydraulic Lift Base Stands

- Support Purifier Logic+ and Cell Logic+ Biosafety Cabinets
- Support loads up to 1,000 lbs. (454 kg)
- Durable 1.75" (4.4 cm) tubular, powder-coated steel frame with rear crossbar supports. Sub-frame has 2.0" (5.1 cm) x 3.0" (7.6 cm) rectangular tubing
- Height is infinitely adjustable from 25.5" (64.8 cm) to 33.5" (85.1 cm)
- Accommodate persons of different heights and equipment transport through doorways with easier access to services
- Ships fully assembled
- Include four powder-coated, die-cast feet with levelers
- NSF-approved
- ADA-compliant
- Front-accessible up/down switch (electric lift models) included
- Front-accessible hand crank included. Handle may be disengaged and folded out of the way, when not in use (manual lift models)

4028600—Support Shelf. Provides a work surface to support remote equipment. Powder-coated steel shelf mounts to left-side tubular frame of base stand. 12.0" w x 22.0" d (26 x 30 cm). **Installation is required.** Shipping weight

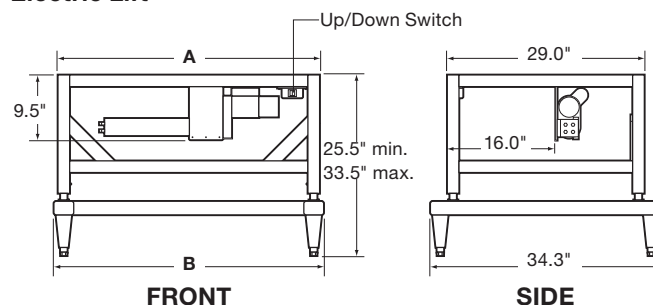

3784000—Caster Kit. Includes four 5" (13 cm) dia., non-marking polyurethane casters with toe locks and bearings. Load rating for each caster is 250 lbs. Casters replace the fixed feet and add 11" (28 cm) to the overall depth of base stand. **Installation is required.**** Not for use with stands that support Type B2 BSC. Shipping weight 10 lbs. (5 kg)

Electric Lift

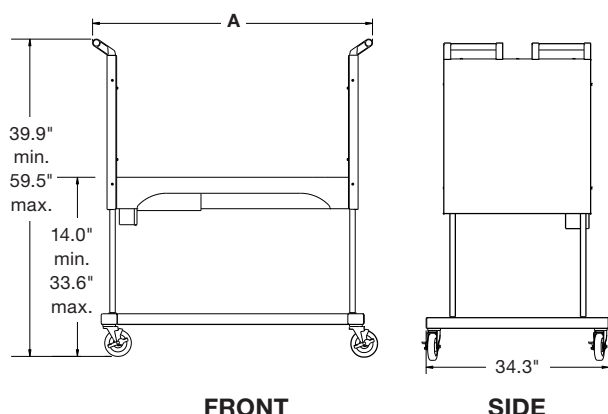

Manual Lift

* International electrical configuration

**Enclosures supported by mobile Base Stands will require special modifications to incorporate flexible ducting, wiring and plumbing when applied.

SoLo™ Hydraulic Lift Base Stands

- Support any Purifier Logic+ or Cell Logic+ Type A2
- Support loads up to 1,000 lbs. (590 kg)
- Durable powder-coated steel construction
- Built-in hydraulic lift is remote control operated with buttons for upward and downward movement. Height adjustment positions the enclosure for persons of different statures, wheelchair-bound users, transport through doorways, and easier service access to upper components
- Infinitely adjustable height provides work surface heights from 17.2" (43.7 cm) to 36.8" (93.5 cm) and overall enclosure height as low as 76.2" (193.5 cm)
- Shipped fully assembled
- Hydraulic lift system permits stand to be lowered so cabinet may be rolled through standard doorways as low as 78" (198 cm) high. Casters provide mobility and lock in place for stability
- 5" (13 cm) dia., toe-locking, non-marking polyurethane casters with bearings for quiet operation
- Two handle bars facilitate transport. Bars are durable PVC-coated steel tubes with polyamide brackets
- NSF-approved
- ADA-compliant
