

100%

Recovery

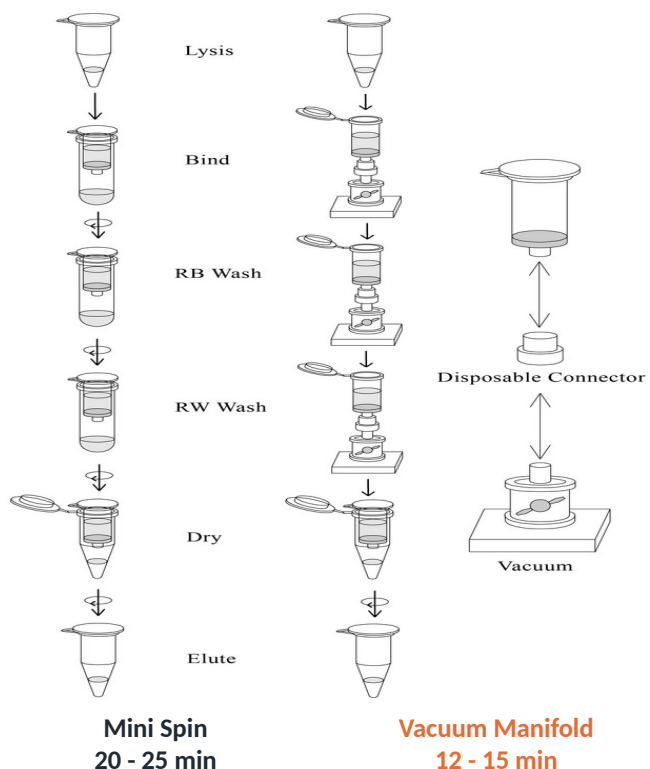

1000

copies / mL sensitivity

15 min

Vacuum manifold workflow

EXTRACTION WORKFLOW

KEY BENEFITS

1

L Solution and Proteinase K included

- ✓ Increased RNA yield and RIN
- ✓ 1000 copies/mL sensitivity, 100% recovery
- ✓ Fewer borderline-sample repeats in downstream qPCR

2

Five sets of collection tubes supplied

- ✓ Discard waste with the collection tube after each spin
- ✓ Save time, minimize contact with flow-through waste
- ✓ Avoid cross-contamination

3

Vacuum manifold procedure

- ✓ Complete the workflow in under 15 minutes
- ✓ Disposable vacuum connectors prevent cross-contamination
