Subject: Notice of Change 006407

To Whom it May Concern,

This letter serves as notice that Thomas Scientific REF 20A00G414, nasopharyngeal specimen collection flocked swab 3mm x 16mm, is now supplied with updated branding that extends from the outer packaging to the pouch in which the identical swab is sealed.

The change in branding from Miraclean to Thomas Scientific Labforce has no effect on either the fit form, or function of the flocked swab. There is no change to the site of manufacturer of the swab, nor is there any change to the site of irradiation.

For additional questions regarding this Notice of Change, please contact Philip Wikoff, Quality Director, at Philip.Wikoff@ThomasSci.com.

Philip Wikoff
