## Material Selection Guide

### Garments

#### ComforTech® Garments

##### *Suitable for Use in Controlled Environments*

- Low Particle Count
- High Filtration Efficiency
- Strong & Durable

#### AlphaGuard® Garments

##### *Perfect Balance of Comfort and Protection*

- Excellent Breathability
- Comfortable to Wear
- Low Particle Count

#### GenPro® Garments

##### *Basic Protection for Non-Hazardous Environment*

- Lightweight and Durable
- Limited Barrier to Particulates and Contamination
- Moderate Barrier to Fluids

### Shoe & Boot Covers

#### UltraGrip™ Shoe & Boot Covers

##### *The Ultimate in Slip and Fall Protection*

- Suitable for Damp and Dry Environments
- Sole Material is Clean and Extremely Durable
- Suitable for use in Critical/Controlled Environments

#### SafeStep® Shoe Covers

##### *Protection for You and the Environment*

- Environmentally Safe
- High Coefficient of Friction
- Strong and Durable

#### MaxGrip® Shoe Covers

##### *Maximum Grip Protection*

- Sole Material is Clean and Extremely Durable
- Suitable for Damp and Dry Environments
- Suitable for use in Critical/Controlled Environments

#### AquaTrak® Shoe & Boot Covers

##### *Outstanding Performance in Wet Environments*

- Ultimate Solution for Wet Conditions
- Provides Appropriate Particle Holdout
- Superior Anti-Skid Properties

#### SureGrip® Shoe Covers

##### *Versatile, Clean and Durable*

- Shoe Cover Choice for Wide Range of Floor Surfaces
- Proven Shoe Cover in Marketplace
- Unmatched Performance and Overall Value

#### GenPro® Shoe Covers

##### *General Purpose, Value Shoe Covers*

- Lightweight
- Moderate Barrier to Fluids
- For Use in General Purpose Environments

#### CPE Shoe Covers

##### *Heat-sealed, Seamless Construction*

- All film, Fluid Resistant
- Short Wear Applications
- Use in Pre-Gowning Areas

**Critical Cover® Facemasks & Shields**

**PFL® Facemasks (with Magic Arch® Supports)**

The innovative and patented Positive Facial Lock® (PFL®) feature utilizes the exclusive Twist-Seal® technology that allows the user to create a custom fit each and every time. This unique feature significantly reduces the possibility of the user inhaling airborne contaminants and creates a positive seal to a variety of facial sizes and features. Additionally, the integrated Magic Arch® prevents the mask from coming in contact with the user's nose and mouth thereby making it easier to breathe while enhancing filtration efficiency. The hypoallergenic materials used in the PFL mask create a durable exterior and a soft, comfortable interior.

**Thomas No.** 1215J32 **APT No.** 608

Blue,  
headband mask  
300/case  
(6 boxes of 50)

**Thomas No.** 1215J35 **APT No.** 615

Blue,  
ear loop mask  
300/case  
(6 boxes of 50)

**N-95 Particulate Respirator**

**Thomas No.** 1229E92 **APT No.** 695

Teal stripe,  
two headbands  
210/case  
(6 boxes of 35)

The Positive Facial Lock® (PFL®) N-95 Particulate Respirator meets the World Health Organization (WHO) and the Centers for Disease Control (CDC) recommended protection levels (where applicable) for many airborne contaminants. NIOSH Certified, our N-95 delivers the appropriate amount of filtration efficiency and when combined with a trio of patented and unique design features, also delivers the user a comfortable, custom fitting facemask. The integrated Magic Arch® technology creates a breathing chamber within the facemask by holding it away from the user's nose and mouth. The PFL technology, incorporating an integrated Twist Seal® chin piece, helps the wearer create a perfect fit every time.

**CoolOne™ Facemask**

If you have skin sensitivity, choose the CoolOne Sensitive Skin facemask. These facemasks are hypoallergenic and free of pigments and dyes. The patented Magic Arch® support strip holds the mask away from the nose and mouth to create a larger breathing chamber to enhance user comfort. For a secure and comfortable fit, soft knit ear loops are ultrasonically welded to the sides.

**Thomas No.** 1215J46 **APT No.** WH 1155

White,  
ear loops  
500/case  
(10 boxes of 50)

**Microbreathe™ Facemask**

**Thomas No.** 1207K34 **APT No.** 9010

White,  
ear loops  
500/case  
(10 bags of 50)

The interior of this facemask is made of a soft, lightweight thermal bond material that provides the user with a comfortable fit. The hypoallergenic design provides high filtration efficiency while remaining a very breathable facemask. The facemask uses soft knit ear loops that are ultrasonically welded on the sides.

**Critical Cover® Facemasks & Shields**

**AlphaAir® Facemask**

**Thomas No.** 1216B40    **APT No.** BL 5005  
  
Blue,  
ear loops  
500/case  
(10 boxes of 50)

The high value AlphaAir® facemasks are clean, comfortable and provide outstanding particle filtration down to 0.1 micron. The full-length aluminum nosepiece helps provide a perfect fit every time. The sonic welded design ensures maximum protection for the user.

**Coverall® Face Shields**

When you need total facial splash protection, choose the Coverall® face shield. The face shield's wrap-around design provides the wearer with great peripheral vision while acting as a protective shield against non-hazardous liquid splash and light particles in a Lab or Controlled Environment. The Coverall® face shield is not ANSI Z87 rated for eye protection. You can wear the lightweight shield comfortably for

long periods and it fits easily over prescription glasses or protective eyewear. A double-sided anti-fog coating reduces the possibility of fogging in high humidity environments. For safe working conditions, the face shield is low distorting and 100% optically clear while a soft polyurethane foam headband securely positions the device on the wearer.

**Full Face Shields**

**Thomas No.** 1229E93    **APT No.** 2807
