

## Basic PP Anti-Skid Shoe Covers

The CE-Force Basic disposable shoe covers are made of a **polypropylene fabric** and are **100% latex and silicone free**. They are excellent for transitioning between “clean” and “unclean” areas. These shoe covers are popular in medical and pharmaceutical environments, GMP facilities, precleanroom gowning zones and for general hygiene.

The **fabric quality** and **strong welds** set these shoe covers apart from its’ competition. They are designed with **triple-elastic runs** that allow a smooth wrap around the foot in order to prevent tripping.

Available in two sizes: **Universal and XL**. The Universal fits most shoe sizes, whereas the Extra Large fits bigger shoes. Standard with **Anti-Skid print pattern soles**.

Made in Canada
