

labForce® square media bottles are made of high-quality PET material through precision molds and automated equipment, with high transparency and high durability. These bottles are ideal for long-term storage of aqueous solutions, such as the storage of serum, culture medium, pancreatin, reagents and other products.

PRODUCT FEATURES:

- *Bottle material: PET, cap material: HDPE
- *Bottle with precise scale
- *The bottle is square, easy to hold and convenient to store and transport.
- *Available in 30ml, 60ml, 125ml, 250ml, 500ml, 1000ml
- *Rigorous leak testing to ensure no leaks
- *DNA/RNA free, pyrogen free, endotoxin free
- *Can be stored frozen at temperatures as low as -135° C
- *Sterilized by E-beam irradiation
- *Packed in shrink-wrapped tray modules.

Thomas No.	Description	Qty/List
21A00Q104	labForce® Sterile Square PET Media Bottles 30ml (40/PK, 7 PKS/CS)	280/Cs \$350.10
