LAB BUYER

Thomas
Scientific

Spring 2024

Welcome!

Thomas Scientific is a distributor of laboratory supplies, equipment, and chemicals. The products in this catalog represent only a small offering from our extensive catalog and website. We're here to make your purchasing process as simple as possible. For additional models, sizes, packaging, and accessories not shown in our catalogs or if you just need help selecting a product, contact us at 833.544.SHIP (7447) or visit us on the web at ThomasSci.com.

Thomas Scientific accepts VISA, Master Card, American Express and the IMPAC card for government buyers.

POs accepted for registered accounts.

Our Mission

To help science create a better world by providing quality products with personal, timely and efficient service.

Delivering Quality Scientific Supplies
Worldwide Since 1900

Special offers and pricing are valid through
June 30, 2024, unless otherwise noted.

NOTE: Offers in this catalog are void where prohibited by law or company policy. Shipping charges are not included. Prices and offers are subject to change without notice and are not to be combined with other offers/discounts or contract pricing. Valid in USA only. Dealer/reseller sales not applicable. For web orders, enter the promo code, if applicable, at time of checkout. For phone orders, please supply the promo code to the customer service representative when ordering. Discount pricing shown must be specified when placing order. Returned products will be subject to billing for Free Items at list price. Free items in 'Buy/Get 1 Free' offers will be the item of lowest value unless otherwise noted. Giveaways and free products may be shipped separately. Allow 4-6 weeks for delivery.

MACHEREY-NAGEL

High-throughput filtration

Multi 96 filter plates from MN

- 96-well polypropylene plates for the simultaneous filtration of 96 samples
- Advantages of this high-throughput system:
Economical by saving time and solvent
Use of multi-channel pipettors facilitates liquid transfer steps
Adaptable to all common automated/robotic handling systems
Minimized dead volume (= 40 µL)
- Membrane materials correspond to the respective CHROMAFIL® syringe filters
