

Our Bio Solutions and Clinical Diagnostics teams utilize a consultative and collaborative approach to develop full workflow solutions. Contact your rep or [click here](#) for a free workflow consultation!

## 1 Collection

**Automation compatible solutions!**

Turn to Thomas Scientific for reliable sourcing of tubes, vials, saline, specimen bags, all swab types, and many other sample collection supplies. We also offer a wide variety of transport media products (VTM, MTM, and more) both in bulk and as pre-packaged solutions.

[Transport Media \(Copan\)](#)

[Swabs \(Copan\)](#)

[Blood Collection \(BD\)](#)

[Sealing Film \(Excel Scientific\)](#)

**Custom kitting is also available! [Click here](#) for a free sample collection discovery session for your lab.**

## 2 Extraction

We can help ensure efficient DNA/RNA extraction regardless of workflow specifics. Products available for magnetic bead, spin column, resin-based, and single-tube extraction, including kits from top suppliers like [MP Biomedicals](#) and centrifuges from [Benchmark Scientific](#).

[Centrifuges \(Benchmark\)](#)

[Spin Column Kits \(MP Bio\)](#)

[Single Tube Kits \(MicroGEM\)](#)

[Extractionless Kits \(labForce\)](#)

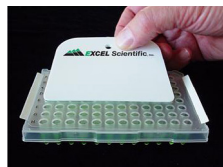

**Interested in adopting an extraction-free workflow? Contact your rep to find out how.**

# 3 Amplification

We offer a broad selection of amplification products including PCR plates, dNTP, Mastermixes, TAQ, and more. Microcentrifuges, shakers, incubators, and other instruments are also available from top suppliers like [Benchmark Scientific](#).
